

CALL FOR PAPERS

COMPUTATIONAL SYSTEMS BIOINFORMATICS

CSB2009

AUGUST 10-13, 2009 STANFORD, CALIFORNIA

You are invited to submit papers to the 2009 Life Sciences Society Computational Systems Bioinformatics Conference (CSB2009). The conference's goal is to facilitate exchange of ideas and collaborations between computational scientists and biologists by presenting cutting-edge computational and systems biology research findings. Such research has an interdisciplinary character. Computer science and mathematical modeling papers must contain a concise description of the biological problem being solved, and biology papers should show how computation or analysis affects the results. Topics of interest include (but are not limited to):

- Sequence comparison
- Promoter Analysis and Discovery
- Biological Data Mining and Visualization
- Evolution and Phylogenetics
- Protein Structures and Complexes
- Microarray Data Analysis
- Pathways, Networks, Systems Biology
- SNPs and Haplotyping
- Biological Literature Mining
- Executable Biology
- Mathematical and quantitative models of cellular and multicellular systems
- High Performance Bio-Computing
- Functional Genomics
- Comparative Genomics
- Proteomic Data Analysis
- Metagenomics
- Drug Discovery
- Chemical Genetics
- RNAi
- Bioenergy
- MicroRNA
- Biomedical Applications
- Translational Research
- Microbial community analysis
- Synthetic Biological Systems

Papers are limited to 12 pages, single-spaced, in 12-point type, including title, abstract (250 words or less), figures, tables, text, and bibliography. The first page should give keywords, authors' postal and electronic mailing addresses. Papers must not have been previously published and must not be currently under consideration for publication elsewhere. Papers will be submitted electronically in MS Word, postscript or PDF format.

Papers will have 25 minutes of presentation time. Paper submissions can be made at the site <http://csbl.bmb.uga.edu/conference/CSB2009/webconf/>

Medline indexes papers appearing in CSB Proceedings. A select subset of accepted papers will be invited to publish an extended version in the Journal of Bioinformatics and Computational Biology. The Best Paper will be selected by the program committee and announced at the awards ceremony.

Important Dates:

- Submission deadline: **extended to March 22, 2009**
- Paper acceptance decision: May 4, 2009
- Final revised draft due to publisher: May 25, 2009

Send e-mail enquiries to CSB2009@LifeSciencesSociety.org. Information about poster submissions and tutorial proposals will be posted at <http://www.LifeSciencesSociety.org>

For more details, go to <http://CSB2009.org>

Program Committee

Tatsuya Akutsu, Kyoto University
Chris Bailey-Kellogg, Dartmouth
Pierre Baldi, University of California Irvine
Liming Cai, University of Georgia
Bill Cannon, PNNL
Jake Chen, Indiana University
Bhaskar DasGupta, University of Illinois Chicago
Andrey Gorin, Oak Ridge National Laboratory
Matt Hibbs, Princeton
Wen Lian Hsu, Academia Sinica
Tamer Kahveci, University of Florida
Carl Kingsford, University of Maryland
Christina Leslie, Memorial Sloan-Kettering Cancer Center
Jing Li, Case Western Reserve
Ann Loraine, University of North Carolina Charlotte
Satoru Miyano, University of Tokyo
Sean Mooney, Indiana University
Bernard Moret, Swiss Federal Institute of Technology
William Noble, University of Washington
Frank Olken, NSF
Isidore Rigoutsos, IBM TJ Watson Research Center
David Sankoff, University of Ottawa
Victor Solovyev, Royal Holloway, University of London
Gary Stormo, Washington University
Haixu Tang, Indiana University
Eberhard Voit, Georgia Tech
Wei Wang, University of North Carolina
Limsoon Wong, University of Singapore
Michael Zhang, Cold Spring Harbor Laboratory
Xuegong Zhang, Tsinghua University, China

Peter Markstein, in silico Labs, LLC
Ying Xu, University of Georgia
